

SOAP2REST Bridge

Document 04 - UI/UX Design Brief

Aesthetic Direction

Professional enterprise-grade dashboard with a modern SaaS appearance. The design should feel similar to Postman, SwaggerHub, Vercel, and Grafana. Clean, minimal, corporate, and developer-friendly.

Primary Color

#4F46E5 (Indigo)

Secondary Color

#7C3AED (Purple)

Background Color

Dark Mode: #0F172A | Light Mode: #FFFFFF

Text Color

Dark Mode: #F8FAFC | Light Mode: #1E293B

Accent / CTA Color

#06B6D4 (Cyan)

Typography

Primary Font: Inter

Secondary Font: JetBrains Mono (API payloads and code)

Heading Size: 28px - 40px

Body Text: 14px - 16px

Component Style

- Rounded Corners: 12px
- Clean Cards
- Soft Shadows
- Glassmorphism Effects for Analytics Widgets
- Interactive Hover States

Dark & Light Mode

Dark Mode is the default experience. Users can switch between Dark and Light mode from Settings.

Reference Applications

- Postman
- SwaggerHub
- Grafana
- Vercel Dashboard
- GitHub Enterprise

Key UI Patterns

- Left Sidebar Navigation
- Dashboard KPI Cards
- Data Tables with Search & Filters
- Modal Dialogs
- Toast Notifications
- API Testing Console Panels
- Analytics Charts using Recharts

Screen Layouts

Dashboard: KPI Cards + Recent Bridges + Analytics Snapshot WSDL Upload: Drag & Drop Upload Area + Parser Status Panel Mapping Console: SOAP Fields → REST Fields Mapping Table API Sandbox: Request Panel | Response Panel | Logs Panel Analytics: Charts + Traffic Reports + Latency Metrics

Mobile Responsiveness

- Fully Responsive Design
- Collapsible Sidebar
- Mobile Navigation Drawer
- Touch-Friendly Controls
- Responsive Analytics Charts

Accessibility Requirements

- WCAG 2.1 Compliance
- High Contrast Support
- Keyboard Navigation
- Screen Reader Compatibility
- Accessible Form Labels

UI Success Criteria

- Professional Enterprise Appearance
- Fast Navigation Experience
- Consistent Design Language
- Easy API Testing Workflow
- Excellent Mobile Experience
