Professional Summary

Computer Science Engineering student with hands-on experience in Data Analytics, Python, SQL, and Power BI. Skilled in data cleaning, visualization, and analyzing datasets to generate meaningful insights. Experienced in working with Excel, creating dashboards, and applying statistical and analytical techniques for data-driven decision-making. Passionate about data analytics and solving real-world business problems through data.

Education

J.J College of Engineering and Technology

Tiruchirappalli

Bachelor of Engineering in Computer Science Engineering

CGPA : 7.65

Aug 2023 – May 2027

Sowma Public School

Manapparai

Higher Secondary Education

10th Percentage : 80

12th Percentage : 62

2021 – 2023

Projects

YouTube Video Performance Prediction System (Data Analytics Project)

- Developed a data analytics application to predict YouTube video performance using Python and Machine Learning.
- Used Visual Studio Code for development and Streamlit for creating an interactive web interface.
- Analyzed video metrics such as views, likes, comments, and upload details.
- Performed data preprocessing, visualization, and model training for prediction analysis.
- Built dashboards and visual reports to display video performance insights and trends.

Jewellery Billing System

- Developed a Java-based console application using OOP concepts.
- Calculated item cost including GST, wastage, and making charges.
- Supported multiple items and dynamic input handling.

Inventory & Order Management UI Design (Figma)

- Designed mobile-based UI screens for an inventory system.
- Created login, dashboard, and order tracking interfaces.
- Built an interactive prototype for user navigation.

Technical Skills

Programming Languages: SQL, Java

Frameworks & Technologies: Spring Boot, HTML, CSS

Tools: Visual Studio Code, IntelliJ IDEA, Git, Figma

Core Concepts: OOPS, DBMS, CRUD Operations

Certifications

- Claude 101 — Anthropic
- Claude Code 101 — Anthropic
- Software Engineer Certificate — HackerRank
